#### MARLINTON, POCAHONTAS COUNTY WEST VIRGINIA, MARCH 1, 1917

Pocabontas

# THE BIRDS OF POCAHONTAS COUNTY

#### BY LIGON PRICE

Thinking that it would be of some interest to those who belong to the Liberty Bell Bird Clubs and others, I have made a list of the birds to be found in Pocshontas County. I do not claim , this list to be entirely complete, especially of the perching birds. Some of these look so much alike that it makes it hard to identify them. I have not made so close a study of the perching birds as I have of some others, up to this time.

Almost all of the ones given in the list I have identified myself. either by killing the specimens or in mounted ones and on good authority by other persons.

I am much indebted to my father, the late J. C. Price, who was raised where Marlinton new stands, as to the ducks and eagles He told me that in his boyhood days that ducks were on the river by the hundreds, and that all the ones I have listed were there. Now we are duckless or in a manner so. This is true of some of the other birds, such as swans, loons, etc. owing to the fact that we have no large screama, no lakes or large ponds, and also the railroad runs the full length of the Greenbrier, and the train passing every few hours keeps them constantly stirred up, giving them no time to stop.

The passenger pigeon is now ex-tinct, though once here by the thousand. The last ones being seen in the early nineties, although an occasional pigeon has been seen in more recent years.

The wood duck used to nest here but it has not been seen for some years, and it is very rare throughout the State.

In speaking of eagles, my father told me that back in the fifties the bald eagle was more common than the golden eagle, the latter being rather rare. Afterwards the golden eagle became more numerous, and I believe the bald ea-

#### NOAH BEILHARZ.

M ORE than fifteen years of active service on the lyceum platform has served to fix the standing of Noah Beilharz as among the most pop-ular of American entertainers. As a reader and interpreter of plays Mr. Beilharz has won unique distinction, pleasing audiences in prac-tically every state in the Union. He has been recalled many times to some of the great courses of the country. As a reader of German dialect selections he has no superior, and his presentation of the horse trade scene from "David Harum" is a classic. For several years "The Hoose Frace scene from "David Harum" is a classic. For several years "The Hoosier School Master" has been given with marked success, Mr. Beilharz using his own cutting of that famous book, presenting the characters in costume and with marked fidelity. A master of humor, this talented artist keeps his indiences royally enter-tained at every turn of his program. He will be see here soon, when he

### **BIG DURBIN FIRE** PART OF THE BIG DURBIN TANNERY BURNED

At eleven o'clock last Thursday night February 22, the night watchmin at the big tannery at Durbin discovered fire in the scrub house. The bluze was too big for him to put out and the hose too heavy for one mun to handle The fire whistle was in a distant part of the plant, and by the time the men had been aroused and responded to the alarm, the fire had gotten great headway. Four large buildings were destroyed the scrub house, one dry house and two yards. The loss cannot at the time be accurately estimated but will possibly be as much as \$400. 000. The loss is covered by in surance.

The large dry house was protected by a brick fire wall and this saved the rest of the plant. The fire destroyed the buildings from this wall to the river.

The two yards were filled with leather in vats in the process of tunning. These hides were damaged but it is not yet known whether a total loss or not.,

A very serious Rem is loss of machinery, which cannot be replaced in less than six or eight months. In one pile is machinery which will cost \$20,000 to duplicate. The destroyed buildings will be replaced at once.

This tannery belongs to the Po cahontas Tanning Company, and is one of the largest of its kind. Judge Hoffman of Wheeling, is folks. one of the principal stockholders of the company, and the superin-tendent is J. W. Goodsell, of Darbin.

## ARBOVALE

J. Hamed left Monday moraing or Baltimore and other eastern tities.

Mises Flora and Mabel Gilisbie spent the week end with their arents at this place.

Walter Lambert had the misfortune to get his foot badly cut. Monroe Beard and Mrs. Ruby

Times.

This school will begin on Monday, April 9th, and continue three

Our aim is to prepare teachers for the uniform examinations and successful work in the school room

All of our large class of students, in the series of examinations last year, merited certificates, and one of these surpassed over five thousand other applicants, having won first honor among the various schools represented in the examinations of West Virginia.

We have, previous to this term, conducted our normal work at Renick, W. Va, and many students from our school have won honors and gold medals for their high standard in examinations.

In addition to the regular work students may pursue any of the following : Piano, Voice, Public School Music, Art, Elecution, Public Speaking, Electric Engineering Dramatic Art, Etc.

Board will be \$15 per month, which is, no doubt, as low as at oth er places. Tuition for the normal course alone will be ten dollars for the term, payable, if convenient, at the beginning of the term.

Prospective students should not overlook the fact that Alderson is an ideal location and an ideal town, possessing, too, some of the best medicinal water in the State.

Come out and attend a session with us, for no school will put forth greater efforts to advance your interest than ours. We have trained hundreds of teachers. Let us train you.

For further information write me at Alderson, W. Va
